

Equipment List

Kart	Available either as a rolling chassis or a full package.
Engine	Dependant on class you are entering
Tyre	A set of Slicks and Wets are required for racing
Helmet	A racing helmet must comply with MSA regulations
Race Suit	A full kart suit must comply with MSA regulations
Shoes	Ankle covered, MSA approved shoes must be worn
Gloves	MSA approved gloves must be worn
Neck Brace	Mandatory for competitors under the age of 16, though we still advise older competitors to wear one

Tools: *Karts mostly use hex bolts and heads, Nylock bolts are also commonly used.*

Ratchet & Spanners	A range of 4-24mm will cover 99% of hex bolts found on a kart
Allen Keys	A range of 1-8mm will cover 99% of allen bolts found on a kart
Screwdrivers	Phillips & Flat-blade screwdrivers are essential
Kart Stand/Trolley	These help make working on a kart easier
Air	Foot Pump or Portable Air compressors are recommended
Tyre Pressure Gauge	
Spark Plugs	
Tyre Bead-Breaker	
Carburettor Jets	Different weather conditions will affect the performance of the engine vastly!
Gear Sprockets & Chains	
Fuel Can	Should be marked with the necessary warning labels
Cleaning and Lubricant Products	

Remember:

Every toolbox is not complete without Duct-Tape, WD40 and a rubber mallet!
